

Lui Zappitelli

Software Developer

Frontend Software Developer specializing in **React** and **React Native**, with experience building **responsive**, **mobile-first**, user-friendly web and mobile applications. Skilled in **JavaScript**, **TypeScript**, **HTML**, **CSS**, **API integrations**, and modern **state-management tools** (**Redux**, **Zustand**, **Context API**).

Experience delivering **production-ready applications**, optimizing **UI performance**, and collaborating with **cross-functional teams**. Currently expanding back-end development skills with **Node.js** to transition into **full-stack roles**.

Experience

Front-End Developer— Moon Poker (Full-time, Remote)

Remote / Jan 2022 – Present

- Developed and maintained the **Moon Poker mobile app**, used for daily online poker tournaments across iOS and Android.
- Built responsive, modular UI components in **React Native**, integrating RESTful APIs for authentication, tournaments, and payments.
- Collaborated with **Figma designers** and backend developers to deliver smooth, intuitive gameplay interfaces.
- Optimized performance and rendering speed, to improve load times and responsiveness.
- Contributed to agile sprints, bug tracking, and version control using **Git/GitHub**.

Front-End Developer — JAM Digital Solutions (Contract)

Winnipeg, MB / May 2022 – Present

- Developed responsive web pages using **React**, **HTML**, **CSS**, and **JavaScript**, ensuring cross-browser compatibility and accessibility.
- Built mobile applications with **React Native**, integrating APIs and improving performance across platforms.
- Collaborated with designers and backend developers to deliver polished, user-focused web solutions.
- Optimized and refactored UI components for performance and scalability.
